**Healthcare Leadership Network of the Delaware Valley names CAHME CEO  
Dr. Anthony Stanowski as the American College of Healthcare Executives  
Regent Award.**

Spring House, PA, March 1, 2021 — The Commission on Accreditation of Healthcare Management Education (CAHME) announced that Dr. Anthony Stanowski, DHA, FACHE, President and CEO, will be awarded the American College of Healthcare Executives (ACHE) Senior-Level Healthcare Executive Regents Award by the Healthcare Leadership Network of the Delaware Valley (HLNDV). The award will be presented on March 3, 2021 at the HLNDV annual “Breakfast with the Regents”. The award is given to executives who exemplify the goals of ACHE, to educate, engage and inspire leaders to improve health.

For nearly 40 years, Dr. Stanowski served the industry in senior leadership roles in the provider, supplier, and healthcare management education sectors.

Since 2016, under Dr. Stanowski’s leadership, CAHME saw a nearly 50% increase in accredited programs to 124, developed partnership opportunities with the industry to encourage excellence, and established accreditation criteria in healthcare quality and safety. CAHME broadened its focus outside of its traditional service area of the US and Canada, and several programs from outside North America are now working toward accreditation. CAHME established program grants and student scholarships to assist the aspiring healthcare leaders to meet their goals. It created an online tool to allow students to better select programs that meet their needs based on key program characteristics and outcomes.

“Anthony has stayed committed to CAHME’s mission over 4 decades, from when he was a graduate student of the accredited program at Widener University, as a healthcare executive, and to his current role,” said Dr. Dolores G. Clement, DrPH, FACHE, Chair of the Board of Directors of CAHME, and herself a former regent’s award recipient. “What makes Anthony a great leader inside and outside of CAHME is that he exemplifies CAHME’s values and is a caretaker of high standards of accreditation.”

“Anthony’s lifetime of working with young careerist extends from hiring administrative residents early in his career to his current role of influencing the education process,” said Michael George Vice President, Healthcare Services at Albert Einstein Medical Center and

ACHE Regent. “Anthony continues to advance healthcare management education, which will have a long-term impact on healthcare.”

“I am humbled by this recognition from my peers at ACHE and HLNDV, thankful for all of the healthcare leaders who shaped my career and energized by the young careerists whose dedication to our healthcare system will make a difference in the communities in which they serve,” said Dr. Stanowski.

### **About CAHME**

Since 1968, CAHME serves the public interest by advancing the quality of healthcare management education globally. 124 leading academic programs are accredited. Leading healthcare executives and academics work to set the criteria and standards necessary to better prepare graduates for leadership in healthcare. The result is a formal rigorous academic education focusing on key competencies, plus practical experiences. This enables new graduates to quickly add value to an organization and grow into future leaders. CAHME is the only organization recognized by the Council on Higher Education Accreditation to grant accreditation to individual academic programs offering a professional master’s degree in healthcare management education. Visit [www.cahme.org](http://www.cahme.org) for more information.

### **About the American College of Healthcare Executives (ACHE)**

ACHE is an international professional society of more than 48,000 healthcare executives who lead hospitals, healthcare systems and other healthcare organizations. ACHE’s mission is to advance our members and healthcare management excellence. ACHE offers its prestigious FACHE® credential, signifying board certification in healthcare management. ACHE’s established network of 77 chapters provides access to networking, education, and career development at the local level. In addition, ACHE is known for its magazine, *Healthcare Executive*, and its career development and public policy programs. Through such efforts, ACHE works toward its vision of being the preeminent professional society for leaders dedicated to improving health. **The Foundation of ACHE** is known for its educational programs—including the annual Congress on Healthcare Leadership, which draws more than 4,000 participants—and groundbreaking research. Its publishing division, Health Administration Press, is one of the largest publishers of books and journals on health services management including textbooks for college and university courses. Visit [www.ache.org](http://www.ache.org) for more information.

### **About Healthcare Leadership Network of the Delaware Valley (HLNDV)**

Founded in 1976, HLNDV is a professional organization of healthcare executives representing a variety of institutions and interests in the Philadelphia region. The Healthcare Leadership Network is an independent chapter of the American College of Healthcare Executives and the only healthcare executive network serving Southeastern Pennsylvania, Southern New Jersey, and Delaware. For more information, visit [www.hlndv.ache.org](http://www.hlndv.ache.org).
