About Governors State University, MHA Program

The Master of Health Administration program at

Governors State University develops the skills needed

to optimize healthcare for patients while improving efficiency and profitability for healthcare facilities. Our comprehensive program covers a breadth of information to ensure students enter the field with a strong foundational knowledge of all areas of healthcare administration, including finance, quality improvement, and human resources management.

About CAHME□

Since 1968, the Commission on Accreditation of Healthcare Management Education (CAHME) has served the public interest by advancing the quality of healthcare management education globally. CAHME accredits 153 academic programs in management which has broadly been defined to include healthcare quality and safety, and population health.

CAHME works with leading academic programs and numerous healthcare practitioners to ensure that graduates entering the healthcare field have undergone an educational process meeting rigorous, measurable standards for effectiveness. The result is a formal academic education focusing on key competencies, plus practical experiences. This enables new graduates to quickly add value to an organization and grow into future leaders. CAHME is the only organization recognized by the Council on Higher Education Accreditation to grant accreditation to individual academic programs offering a graduate degree in healthcare management.
