Purpose

The CAHME annual survey is a critical part of being an accreditor. It is how CAHME ensures that programs continue to meet criteria and standards. This is required by the Council for Higher Education Accreditation, based on US Department of Education policy.

The trend toward publicly reporting outcomes data to support the concept of value in post secondary education has been led by leading think tanks such as the Institute for Higher Education Policy (IHEP), the Bill and Melinda Gates Foundation, and the Lumina Foundation. The annual survey data and the summary site visit reports have been published in CAHME's Advance Search Tool since late 2019.

The annual report data aligns with CAHME's five core values: Integrity, Excellence, Transparency, Fairness, and Recognition and equips programs to take actionable steps toward continuous improvement:

• **Integrity:** Provides data trends to ensure that there are no significant program changes that might compromise the quality of the program deemed to be sufficient to earn a CAHME "accreditation".

• **Excellence:** Allows programs to compare their data to other programs which may be the impetus for improvement.

• **Transparency:** Increases visibility of outcomes and comparative performance, as well as being used for public reporting, as is required by the US Department of Education and CHEA

• **Fairness:** Universally required by all programs; there are no exceptions. Data is readily comparable and is submitted in a timely manner.

• **Recognition:** Enables our accredited programs, certified programs in Health Quality and Safety and in Population Health Management, and programs in candidacy to be publicly recognized on CAHME's website and in the advanced search tool.

Overview of the Annual Report Process

In order to meet its obligations to monitor an accredited program's continued compliance with the criteria, CAHME requires an annual report from each accredited program. These reports will be designed to identify any major changes in the program's faculty and/or leadership, curriculum, enrollment, organizational setting, or administrative/fiscal support that may impact the program's continued ability to meet the standards of good quality for graduate programs in healthcare management.

CAHME staff will be responsible for reviewing all annual reports. If staff have any questions or concerns about changes that may impact the program's continued ability to meet the criteria, the program's report will be referred to the Accreditation Council for review. Major changes in the program can result in further inquiry or an Interim Site Visit.
Annual Reports will be due on the 15th day of November. Reports that are late will incur a late reporting fee (See Fee Schedule). Failure to submit an Annual Report within three months of the due date will be grounds for adverse action.

		25th %tile	**50th %tile**	**75th %tile**	**Mean**	
7	Expected Mode of Delivery					Choose from Residential, Online or Hybrid. **Residential:** Typically students are expected to be on campus for most courses. **Online:** Typically students access all class materials in the online format. **Hybrid:** Typically students travel to the program once a semester for an intense period, and the rest of the materials are delivered online.
8	Program Student Track					Select the track from the following: **Non-Executive Full-Time:** Program is primarily designed for full-time students. Most of the student body takes full-time classes. **Non-Executive Part-Time:** While students may take classes full-time, the program is primarily designed to accommodate the part-time student. Most of the student body is part-time. **Executive Full-Time:** Typically these programs are geared toward professionals with some level of work experience through seasoned executives. Typically students are in a cohort over a defined time period, and most of the students' time is dedicated towards coursework. **Executive Part-Time**: Typically these programs are geared toward professionals with some level of work experience through seasoned executives. Typically students may attend course based on their schedule.
9	Program Accelerated Track					Yes/No answer: Is your program Accelerated? These programs are intensive, accelerated versions of the typical program offered by this program or other programs. Usually (but not always) accelerated programs are Executive track programs.
10	Program Cohort Status					Yes/No answer: Is your program primarily cohort-based?
11	Degree(s) Granted					Specify the degree for your program. Typically each program has one degree so if you select more than one, explain why. List of Degree options: MHA, MHSA, MBA/MPH (dual) MS, MSHA, MSc, MBA, MPA, MPH/MBA (dual), MPH, MA, MBA/MHA (dual), MHSc, Other If Other is selected, write in the Distinct Degree
	Program Profile URL					Entered by CAHME. DO NOT EDIT. This is the CAHME URL to your program's Advance Search Program Profile which shows Annual Report data to the public, including Student Outcomes. You may place this URL on your program's website as a way to meet the safe harbor of Criterion II.A.1 which requires every program to have Student Outcomes data on their website.
